Poisonous Plants

Toxic and Non-Toxic Plants List

ASPCA Animal Poison Control Center Phone Number: (888) 426-4435

This list contains plants that have been reported as having systemic effects on animals and/or intense effects on the gastrointestinal tract. Please note that the information contained in our plant lists is not meant to be all-inclusive, but rather a compilation of the most frequently encountered plants. Individual plants may differ in appearance from the photos used on our listings. Please be sure to check the name of the plant to determine its toxicity.

Also, be advised that the consumption of **any** plant material **may** cause vomiting and gastrointestinal upset for dogs and cats. Plants listed as either non-toxic, or potentially toxic with mild GI upset as their symptoms are not expected to be life-threatening to your pets.

If you believe that your animal is ill or may have ingested a poisonous substance, or if you have any further questions regarding the information contained in this database, contact either your local veterinarian or the APCC 24-hour emergency poison hotline at 1-888-426-4435.
